

Demo Queries for the E-Commerce DB

Query 1:

```
SELECT ProductId, Name, Category, Price, Stock
FROM Product
WHERE Stock > 75
ORDER BY Stock ASC;
```

This query will display the products 'Notebook', 'Pen', and 'Sound Panels'

Query 2:

```
SELECT CardId, CardHolder, CONCAT('**** ', RIGHT(CardNumber, 4)) AS
CardEnding, DateExpires
FROM CreditCard
WHERE DateExpires <= '2026-12-31'
ORDER BY DateExpires ASC;
```

This query displays all cards that will expire by the end of the year

Query 3:

```
SELECT c.FirstName, c.LastName, p.Name AS ProductName, p.Price
FROM Purchases pu
JOIN Customer c ON pu.CustomerId = c.CustomerId
JOIN Product p ON pu.ProductId = p.ProductId
WHERE p.Price > 100.00
ORDER BY c.LastName, p.Name
```

This query shows the last names and products purchased where the product price is > \$100
